*You make the difference in AIPG!*

*Share the Geologist's View!*

One of the best things about being a geologist is experiencing people, places, and things in a way that many others never do.

We see the world from a different perspective from the roadcut along a busy highway that many consider "just rock" to the most beautiful features on the planet and beyond. We seek to understand the history of earth, the reasons why formations exist, and how it all impacts our lives.

We see the world through a different lens. Many of you record your view of the world with a camera, and we encourage you to share the work we do and the beauty and wonder of our world as seen by a geologist. email to: [aipg@aipg.org](mailto:aipg@aipg.org)
