

Field Trip Itinerary Saturday May 13<sup>th</sup> 2017, 9 am – 4 pm

Jay Zambito, Lisa Haas, and Bill Batten (WGNHS)  
with assistance from Badger Mining Corporation

This trip is designed to showcase outcrops, mine sites, and drill core of the major rock units in the industrial sand mining region of west-central Wisconsin. These units include the Cambrian Eau Claire shale (fill), Wonewoc sandstone (industrial sand), Tunnel City shale and sandstone (fill and potentially industrial sand), St. Lawrence Formation dolostone and siltstone (aggregate and fill), Jordan sandstone (industrial sand), and the Ordovician Prairie du Chien dolostone (aggregate). The trip will proceed stratigraphically up-section, showing these rock units from oldest to youngest, and highlighting the geologic history recorded in these rocks, their geochemistry and mineralogy, and their natural resource potential.

- **Holiday Inn conference venue:** Check in begins at 8:45. Bus will be located near the main entrance of the hotel. Participants are responsible for bringing any medication (including bug spray and sun screen) and wearing appropriate apparel (no open-toed shoes). A bathroom will be available on the bus and a public restroom at lunch.
  
- *Depart 9am. Drive 1 hour to Bear Creek Road shale pit.*
